

# Cobra

## Dry Dream

- Sophisticated Technology for a very high power efficiency
- Remote Control
- Ionizer
- Microprocessor Control
- International Patent

**BREVETTO  
INTERNAZIONALE**

**Made in Italy**

### DATI TECNICI

Max. Rated Power Consumption (at 20°C, 60% R.H.)	205 W
Max. Rated Power Consumption (at 35°C, 95% R.H.)	290 W
Max. Current Absorbed (at 35°C, 95% R.H.)	1.9 A
Air Flow Capacity	250 cu.mt/h
Max. Sound Pressure Level (at 3 mts. in free field)	38 db(A)
Cooler <b>R134a</b>	235 g
Defrosting Control System	elettronic
Capacity of Condensed Water Tank	5,5 liters
Functioning Range for Temperature	7-35 °C
Functioning Range for Relative Humidity	35 - 99 %
Rated Condensation Capacity (at 30°C - 80 %)	15 l/24h
Rated Condensation Capacity (at 32°C-90 %)	19 l/24h
Weight with empty tank	16 kg
Dimensions WxDxH mm	320x320x610
Dimensions with Packaging Carton Boxes LxDxH mm	360x350x660
Number of Units in 40' (20') container	approx. 700

### CONDENSED HUMIDITY AT DIFFERENT TEMPERATURES AND R.H. CONDITIONS

20°C 60%	20°C 60%	20°C 80%	25°C 60%	25°C 80%	27°C 65%	30°C 80%	32°C 90%

Dry Dream

# Cobra

*The dehumidifier for the future*

*A Technologic  
Dream for the future  
(patented by FRAL)*

Il produttore si riserva il diritto di apportare modifiche, senza preavviso, alle caratteristiche dei prodotti illustrati

*"When in one Company  
Art, Technology and  
Passion  
join together to design a  
beautiful future,  
the present shines with  
illuminating ideas."*

R.M.

**FRAL**

Technologic Dreams

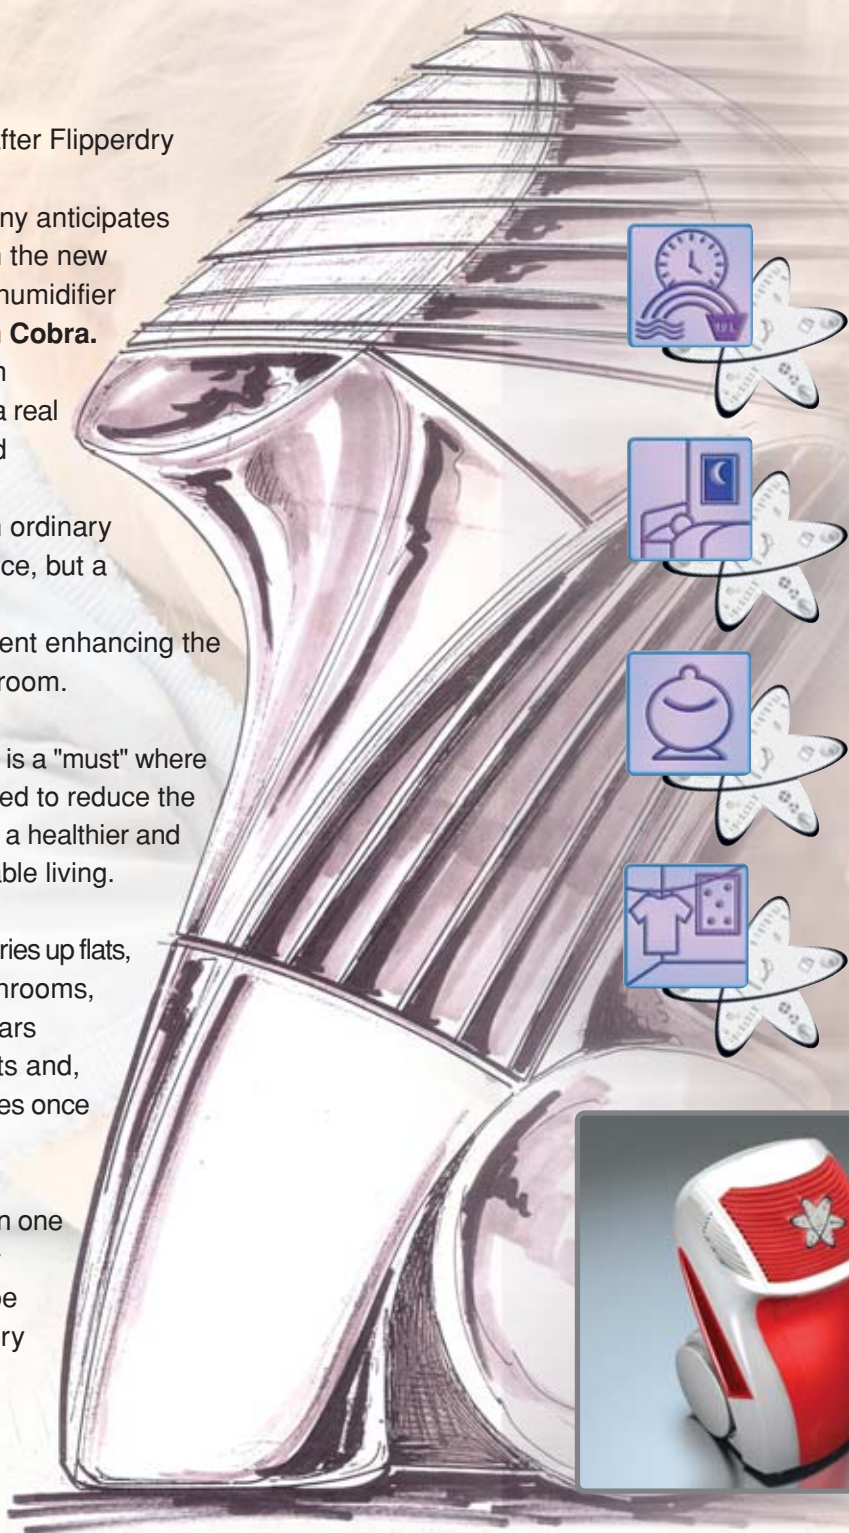

Once again, after Flipperdry model, **FRAL** Company anticipates the future with the new household dehumidifier **Flipperdream Cobra**.

It is not just an evolution, but a real technologic and aesthetic dream. Not an ordinary house appliance, but a decorative furniture element enhancing the beauty of the room.

**Cobra** is a "must" where there is the need to reduce the air humidity for a healthier and more comfortable living.

**Cobra** dries up flats, canteens, bathrooms, laundries, cellars and basements and, also your clothes once washed.

**Cobra** In one word, one Dry Dream must be present in every house.

With the new mod. **Cobra**, the quality and technology of the Flipper Line dehumidifiers reach the very top.

**Up to 19 liters of water dried up in the air in 24 hours** (see Technical sheet)

**Noiseless (max. 39 Decibel of noise pressure level)**, as indicated in the Technical Sheet;

**Very low power consumption** with high savings on electricity costs.

**Dries the washed clothes**, avoiding the pleats in the shirts and maintaining the natural vapoury aspect of the wool and cotton sweaters and jerseys.

## COBRA, A TECHNOLOGIC DREAM

- **Microprocessor Control**
- **Visual and acoustic warning of tank "full"**
- **Gravity control of tank level**
- **Electronic indicator of temperature and humidity values**
- **Three Fan Speeds (with "sleep" function)**
- **Signal of Air Filter dirty**
- **6000 V. Ionizer (optional)**
- **Remote Control (optional)**
- **High Efficiency Evaporator with round smooth pipes**

## BENEFITS

- Prevention from moulds, bacteria and unpleasant smells;
- Elimination of the water condensed on cold surfaces like walls, window panes and floors;
- Very useful in the prevention of articulations pains, alterations of blood pressure, arthrosis and respiratory problems;
- Prevention from deterioration of organic materials like foodstuff, paper, wood, etc.;
- Prevention from malfunctioning and possible damages to electronic and mechanical devices;
- Very useful for the drying of walls and floors in new buildings;
- The best solution for the fast and natural drying of clothes in general, during winter, and in domestic or professional laundries.
